GENERAL INFORMATION

Industry and Market Data

The data included in this prospectus and, in particular, in “Prospectus Summary” in this prospectus and “Business” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2020 incorporated herein by reference, or the 2020 Form 10-K, regarding markets and the industry in which we operate, including the size of certain markets and our position and the position of our competitors within these markets, are based on publicly available information, reports of government agencies, published industry sources and the Environmental Industry Study prepared by Environmental Business International, Inc., or EBI, in October 2019, which study we commissioned. Additional sources of industry and market data included in this prospectus are as follows: World Bank and Institute for Health Metrics and Evaluation, *The Cost of Air Pollution: Strengthening the Economic Case for Action* (2016).

In presenting this information, we have also made certain estimates and assumptions that we believe to be reasonable based on the information referred to above and similar sources, as well as our internal research, calculations and assumptions based on our analysis of such information and our knowledge of, and our experience to date in, our industries and markets. Market share data is subject to change and may be limited by the availability of raw data, the voluntary nature of the data gathering process and other limitations inherent in any statistical survey of market share data. In addition, customer preferences are subject to change. Accordingly, you are cautioned not to place undue reliance on such market share data or any other such estimates. While we believe such information is reliable, neither we nor the underwriters can guarantee the accuracy or completeness of this information, and neither we nor the underwriters have independently verified any third-party information and data from our internal research has not been verified by any independent source. While we believe the estimated market and industry data included in this prospectus are generally reliable, such information, which is derived in part from management’s estimates and beliefs, is inherently uncertain and imprecise.

Projections, assumptions, expectations and estimates of our future performance and the future performance of the industries and markets in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in “Risk Factors” and “Forward-Looking Statements” herein and in the documents incorporated herein by reference. These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Trademarks

We own or have the rights to use various trademarks, service marks and trade names that we use in connection with the operation of our business. This prospectus may also contain trademarks, service marks and trade names of third parties, which are the property of their respective owners. Our use or display of third parties’ trademarks, service marks, trade names or products in this prospectus is not intended to, and does not, imply a relationship with, or endorsement or sponsorship by or of, us. Solely for convenience, the trademarks, service marks and trade names presented in this prospectus may appear without the ®, TM or SM symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the rights of the applicable licensor to these trademarks, service marks and trade names.

Company Overview

The Environment is Our Business.

Since our inception in 2012, our mission has been to help clients and communities meet their environmental goals and needs. Today, we have emerged as one of the fastest growing companies in a highly fragmented and growing global environmental industry.

Our industry is highly fragmented with no single market leader. By focusing on environmental solutions, we believe we are uniquely positioned to become a leading platform in the industry. We provide a diverse range of environmental services to our private and public sector clients across the life cycle of their needs—whether they are launching new projects, maintaining operations, decommissioning operations, rehabilitating assets, managing the impacts of climate change or responding to unexpected environmental disruption. Our integrated platform has been a catalyst for our organic growth and we have built on this platform through strategic acquisitions.

Innovation is core to our strategy. The world’s environmental challenges continue to grow in number, scope and complexity, and mounting public pressure and regulatory changes continue to drive demand for better information and solutions. We focus on innovation in order to improve the quality of information we can provide to clients (such as identifying variations of Per- and polyfluoroalkyl substances, or PFAS, in water) and provide better solutions to their environmental needs (such as the efficient removal of PFAS from contaminated water). We intend to continue innovating by investing in research, development and technology (directly and through strategic partnerships) to develop better solutions for our clients. We believe these investments—together with our investments in geographic expansion, sales and marketing initiatives, environmental service offerings and strategic acquisitions—will continue to distinguish us in the marketplace.

Our revenue and earnings are highly resilient. We are not dependent upon any single service, product, political approach or regulatory framework. We also serve a diverse set of more than 5,000 clients across a wide variety of end markets and geographies within the private and public sectors. Funding for our services is typically non-discretionary given regulatory drivers and public health concerns. As a result, our business is positioned to be less susceptible to political and economic cycles. Our approach has allowed us to successfully scale our business, and we believe we are well positioned to continue our trajectory and market leadership as we address the growing environmental needs of our clients and communities.

We provide environmental services to our clients through three business segments—Assessment, Permitting and Response, Measurement and Analysis and Remediation and Reuse.

Assessment, Permitting and Response

Through our Assessment, Permitting and Response segment, we provide scientific advisory and consulting services to support environmental assessments, environmental emergency response and environmental audits and permits for current operations, facility upgrades, new projects, decommissioning projects and development projects. Our technical advisory and consulting offerings include regulatory compliance support and planning, environmental, ecosystem and toxicological assessments and support during responses to environmental disruptions. We help clients navigate regulations at the local, state, provincial and federal levels. In addition to environmental toxicology, and given our expertise in helping businesses plan for and respond to disruptions, our scientists and response teams have helped clients navigate their preparation for and response to the COVID-19 pandemic.

Measurement and Analysis

Through our Measurement and Analysis segment, our highly credentialed teams test and analyze air, water and soil to determine concentrations of contaminants, including emerging contaminants such as PFAS, as well as determine the toxicological impact of contaminants on flora, fauna and human health. Our offerings include source and ambient air testing and monitoring, leak detection and advanced analytical laboratory services such as air, storm water, wastewater and drinking water analysis.

Remediation and Reuse

Through our Remediation and Reuse segment, we provide clients with engineering, design, implementation and operations and maintenance services, primarily to treat contaminated water, remove contaminants from soil or create biogas from agricultural waste. We do not own the properties or facilities at which we implement these projects or the underlying liabilities, nor do we own material amounts of the equipment used in projects; instead, we assist our clients in designing solutions, managing projects and mitigating their environmental risks and liabilities.

Principal Executive Offices

We were incorporated in Delaware in November 2013. Our principal executive offices are located at 5120 Northshore Drive, North Little Rock, Arkansas 72118 and our telephone number is (501) 900-6400. Our website address is www.montrose-environmental.com. Information contained on our website or linked therein or otherwise connected thereto does not constitute part of nor is it incorporated by reference into this prospectus or the registration statement of which this prospectus forms a part, and the inclusion of our website address in this prospectus is an inactive textual reference only.

Implications of Being an Emerging Growth Company

As a company with less than \$1.07 billion in revenue during our most recently completed fiscal year, we qualify as an “emerging growth company” as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As an emerging growth company, we may take advantage of specified reduced disclosure and other requirements that are otherwise applicable generally to public companies that are not emerging growth companies. These provisions include:

- reduced disclosure about our executive compensation arrangements in our periodic reports, proxy statements and registration statements;

[Table of Contents](#)

- reduced obligations with respect to financial data, including presenting only two years of audited consolidated financial statements and only two years of selected financial data;
- exemption from non-binding stockholder advisory votes on executive compensation or golden parachute arrangements; and
- exemption from the auditor attestation requirement in the assessment of our internal control over financial reporting.

We may take advantage of these exemptions for up to five years or such earlier time that we are no longer an emerging growth company. We will cease to be an emerging growth company upon the earliest of: (i) the end of the fiscal year following the fifth anniversary of our initial public offering, which occurred in July 2020 and which we refer to as our IPO throughout this prospectus; (ii) the last day of the fiscal year during which our annual gross revenues are \$1.07 billion or more; (iii) the date on which we have, during the previous three-year period, issued more than \$1.0 billion in non-convertible debt securities; or (iv) the end of any fiscal year in which the market value of our common stock held by non-affiliates exceeded \$700.0 million as of the end of the second quarter of that fiscal year. We will cease to be an emerging growth company as of the end of fiscal year 2021 because the market value of our common stock held by non-affiliates exceeded \$700.0 million as of June 30, 2021, the end of the second quarter of that fiscal year.

We have elected to take advantage of certain reduced disclosure obligations in this prospectus, and we may elect to take advantage of other reduced disclosure obligations in future filings with the Securities and Exchange Commission, or SEC, while we remain an emerging growth company. If we do, the information that we provide stockholders may be different than what you might receive from other public reporting companies in which you may have equity interests.

The JOBS Act permits an emerging growth company such as us to take advantage of an extended transition period to comply with new or revised accounting standards applicable to public companies. We have chosen to “opt in” to this extended transition period for complying with new or revised accounting standards and, as a result, we will not be subject to the same new or revised accounting standards as other public companies that comply with such new or revised standards on a non-delayed basis.

Amended and Restated 2017 Stock Incentive Plan, or the 2017 Stock Plan, at a weighted average exercise price of approximately \$17.21 per share, which amount includes options to purchase 343,905 shares of common stock that were exercised after June 30, 2021 and are included in outstanding shares above; and
- 1,593,287 shares of common stock reserved for future issuance under the 2017 Stock Plan as of September 26, 2021.

Further, unless otherwise indicated, this prospectus assumes no exercise of the underwriters’ option to purchase up to an additional 375,000 shares of our common stock from us in this offering.

See “Capitalization” in this prospectus supplement, “Description of Capital Stock” in the accompanying prospectus and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the 2020 Form 10-K and our Quarterly Reports on Form 10-Q incorporated herein by reference.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below, together with all of the other information included and incorporated by reference in this prospectus, including the financial statements and the related notes appearing in the 2020 Form 10-K and our Quarterly Reports on Form 10-Q, before making an investment decision. If any of the following risks actually occurs, our business, financial condition and results of operations could be materially and adversely affected and the trading price of our common stock could decline, causing you to lose all or part of your investment in our common stock.

Additionally, the COVID-19 pandemic may amplify many of the risks discussed below to which we are subject and, given the unpredictable, unprecedented and fluid nature of the pandemic, it may materially and adversely affect us in ways that are not anticipated by or known to us or that we do not consider to present significant risk. Therefore, we are unable to estimate the extent to which the pandemic and its related impacts will adversely affect our business, financial condition and results of operations as well as our stock price following completion of this offering.

Risks Related to the Offering and Ownership of Our Common Stock

An active trading market for our common stock may not be sustained.

Although our common stock is traded on the New York Stock Exchange, or the NYSE, under the symbol “MEG,” there is a limited trading history and an active trading market for our common stock may not be sustained. Accordingly, no assurance can be given as to the following:

- the likelihood that an active trading market for our common stock will be sustained;
- the liquidity of any such market;
- the ability of our stockholders to sell their shares of common stock; or
- the price that our stockholders may obtain for their common stock.

If an active market for our common stock with meaningful trading volume is not maintained, the market price of our common stock may decline materially below the offering price and you may not be able to sell your shares. The public offering price for our shares in this offering will be determined by negotiations between us and representatives of the underwriters and may not be indicative of prices that will prevail in the open market following this offering. Consequently, you may not be able to sell our common stock at prices equal to or greater than the price you paid in this offering.

The trading price of our common stock has been and may continue to be volatile and could decline substantially following this offering.

Since our initial public offering in July 2020, or the IPO, the market price of our common stock has been, and may continue to be, highly volatile and subject to wide fluctuations. Some of the factors that could negatively affect the market price of our common stock or result in significant fluctuations in price, regardless of our actual operating performance, include:

- actual or anticipated variations in our quarterly operating results;
- changes in market valuations of similar companies;
- changes in the markets in which we operate;

[Table of Contents](#)

- additions or departures of key personnel;
- actions by stockholders, including sales of large blocks of our common stock such as in this offering;
- speculation in the press or investment community;
- short selling of our common stock or related derivative securities or hedging activities;
- general market, economic and political conditions, including an economic slowdown;
- changes in interest rates;
- our operating performance and the performance of other similar companies;
- our ability to accurately project future results and our ability to achieve those or meet the expectations of other industry and analyst forecasts; and
- new legislation or other regulatory developments that adversely affect us, our markets or our industry.

The trading market for our common stock is also influenced in part by the research and other reports that industry or securities analysts may publish about us or our business or industry. If one or more analysts downgrade our stock, issue other unfavorable commentary about us or our industry or inaccurate research, or cease coverage or fail to regularly publish reports on us, our stock price and trading volume could decline.

Furthermore, in recent years, the stock market has experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies, including companies in our industry, and often occurs without regard to the operating performance of the affected companies. Therefore, factors that have little or nothing to do with us could cause the price of our common stock to fluctuate, and these fluctuations or any fluctuations related to our company could cause the market price of our common stock to decline materially below the public offering price.

We are an emerging growth company, and any decision on our part to comply with certain reduced reporting and disclosure requirements applicable to emerging growth companies could make our common stock less attractive to investors.

We are an emerging growth company, and currently take advantage of exemptions from various reporting requirements applicable to other public companies but not to emerging growth companies, including, but not limited to, not being required to have our independent registered public accounting firm audit our internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our registration statements, periodic reports and proxy statements and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. Under the JOBS Act, emerging growth companies can also delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have chosen to “opt in” to this extended transition period for complying with new or revised accounting standards and, as a result, we will not be subject to the same new or revised accounting standards as other public companies that comply with such new or revised standards on a non-delayed basis. We will cease to be an emerging growth company as of the end of fiscal year 2021 because the market value of our common stock held by non-affiliates exceeded \$700.0 million as of June 30, 2021, the end of the second quarter of that fiscal year. We cannot predict if investors will find our common stock less attractive for so long as we continue to rely on these exemptions. If some investors find our common stock less attractive as a result of any choices to reduce future disclosure, there may be a less active trading market for our common stock and the price of our common stock may be more volatile.

We have no present intention to pay dividends on our common stock.

We have no present intention to pay dividends on our common stock. Any determination to pay dividends to holders of our common stock will be at the discretion of our board of directors and will depend upon many factors, including our financial condition, results of operations, projections, liquidity, earnings, legal requirements, restrictions in our credit facility, the terms of our Series A-2 preferred stock, agreements governing any other indebtedness we may enter into and other factors that our board of directors deems relevant. Accordingly, you may need to sell your shares of our common stock to realize a return on your investment, and you may not be able to sell your shares at or above the price you paid for them.

Oaktree may have conflicts of interest with other stockholders.

OCM Montrose II Holdings, L.P., an affiliate of Oaktree Capital Management, L.P., or collectively, Oaktree, is the holder of all issued and outstanding shares of our Series A-2 preferred stock. Oaktree is in the business of making investments in companies and, notwithstanding its ownership of our preferred stock and that it has a representative on our board of directors, Oaktree may from time to time acquire and hold interests in businesses that compete directly or indirectly with us. Oaktree may also pursue acquisition opportunities that may be complementary to our business, and as a result, those acquisition opportunities may not be available to us. In recognition that representatives of Oaktree and its affiliated entities and funds may serve as members of our board of directors, our amended and restated certificate of incorporation provides, among other things, that none of Oaktree, its affiliates or any of its representatives (including a representative who may serve on our board of directors) has any duty to refrain from engaging directly or indirectly in the same or similar business activities or lines of business that we do. In the event that any of these persons or entities acquires knowledge of a potential transaction or matter which may be a corporate opportunity for itself and us, we will not have any expectancy in such corporate opportunity, and these persons and entities will not have any duty to communicate or offer such corporate opportunity to us and may pursue or acquire such corporate opportunity for themselves or direct such opportunity to another person. Oaktree also has a right of first offer with respect to its pro rata portion of any new securities we may issue, excluding any shares to be issued by us in certain specified circumstances. These potential conflicts of interest could have a material adverse effect on our business, financial condition and results of operations if, among other things, attractive corporate opportunities are allocated by Oaktree to itself or one of its other affiliates. See “Description of Capital Stock—Provisions of Our Certificate of Incorporation, Bylaws and Delaware Law That May Have an Anti-Takeover Effect—Corporate Opportunities” in the accompanying prospectus.

Future sales of our common stock in the public market could cause our stock price to fall.

We, our executive officers and directors have entered into or will enter into lock-up agreements with the underwriters that will, subject to certain exceptions, restrict the sale of shares of our common stock held by them for 60 days following the date of this prospectus. The representatives for the underwriters in this offering may, without notice except in certain limited circumstances, release all or any portion of the shares of common stock subject to these lock-up agreements. See “Underwriting” for a description of these lock-up agreements. The market price of our common stock may decline materially when these restrictions on resale by our affiliates lapse or if they are waived.

Upon the expiration of the lock-up agreements, all shares held by our affiliates are eligible for resale in the public market, subject to applicable securities laws, including the Securities Act. Therefore, unless shares owned by any of our affiliates are registered under the Securities Act, these shares may only be resold into the public markets in accordance with the requirements of an exemption from registration or safe harbor, including Rule 144 and the volume limitations, manner of sale requirements and notice requirements thereof. However, pursuant to the terms of an Investor Rights Agreement, Messrs. Richard Perlman and James Price, Oaktree, and certain other stockholders have the right to demand that we register their shares under the Securities Act as well as the right to include their shares in any registration statement that we file with the SEC, subject to certain

[Table of Contents](#)

exceptions. Approximately 1.5 million shares of common stock are held by affiliates and certain other parties and entitled to these registration rights were registered on a shelf registration statement filed with the SEC on August 11, 2021 and declared effective on August 20, 2021. This registration statement also registered approximately 1.4 million shares held by certain executive officers and directors, each of whom is party to a 60-day lock-up agreement with the representatives. Oaktree also holds all outstanding shares of our Series A-2 stock, which may be converted into shares of common stock in the future and would also receive the benefit of these registration rights. See Note 17 to our audited consolidated financial statements included in our 2020 Form 10-K incorporated herein by reference. Registration of these or other shares enables those shares to be sold in the public market, subject to certain restrictions in the Investor Rights Agreement and the restrictions under the lock-up agreements referred to above. Any sale by Messrs. Perlman and Price, Oaktree or other stockholders or any perception in the public markets that such a transaction may occur could cause the market price of our common stock to decline materially.

We have also registered the shares available under our 2017 Stock Plan and outstanding awards issued under this plan and our prior stock option plan. Subject to the terms of the awards pursuant to which these shares have been or may be granted, and except for shares held by affiliates who will be subject to the resale restrictions described above, the shares issuable pursuant to awards granted under our stock incentive plans will be available for sale in the public market immediately.

Our ability to raise capital in the future may be limited. We may not be able to secure additional financing on terms that are acceptable to us, or at all.

In order for us to grow and successfully execute our business plan, we will require additional financing. Additionally, our business and operations may consume resources faster than we anticipate. Therefore, in the future, we expect we will raise additional funds through various financings that may include the issuance of new equity securities, debt or a combination of both. However, the lapse or waiver of the lock-up restrictions discussed above, or any sale or perception of a possible sale by Oaktree or our other affiliates, and any related decline in the market price of our common stock, could impair our ability to raise capital. Further, additional financing, whether debt or equity, may not be available on favorable terms, or at all. If adequate funds are not available on acceptable terms, we may be unable to fund our capital requirements. If we issue new debt securities, the debt holders would have rights senior to common stockholders to make claims on our assets, and the terms of any debt could restrict our operations, including our ability to pay dividends on our common stock. If we issue additional equity securities, existing stockholders will experience dilution, and the new equity securities could have rights senior to those of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk of our future securities offerings reducing the market price of our common stock and diluting their interest.

Risks Related to Provisions in Our Charter Documents

Provisions of our amended and restated governing documents, Delaware law and other documents could discourage, delay or prevent a merger or acquisition at a premium price.

Provisions in our amended and restated certificate of incorporation and amended and restated bylaws may have the effect of delaying or preventing a change of control or changes in our management. For example, our amended and restated certificate of incorporation and amended and restated bylaws include provisions that:

- permit us to issue, without stockholder approval, preferred stock in one or more series and, with respect to each series, fix the number of shares constituting the series and the designation of the series, the voting powers, if any, of the shares of the series and the preferences and other special rights, if any, and any qualifications, limitations or restrictions, of the shares of the series;
- prevent stockholders from acting by written consent;

[Table of Contents](#)

- limit the ability of stockholders to amend our certificate of incorporation and bylaws;
- require advance notice for nominations for election to the board of directors and for stockholder proposals;
- do not permit cumulative voting in the election of our directors, which means that the holders of a majority of our common stock may elect all of the directors standing for election; and
- establish a classified board of directors with staggered three-year terms.

These provisions may discourage, delay or prevent a merger or acquisition of our company, including a transaction in which the acquirer may offer a premium price for our common stock.

We are also subject to Section 203 of the Delaware General Corporation Law, or the DGCL, which, subject to certain exceptions, prohibits us from engaging in any business combination with any interested stockholder, as defined in that section, for a period of three years following the date on which that stockholder became an interested stockholder. In addition, our 2017 Stock Plan permits accelerated vesting of stock options and restricted stock, and payments to be made to the employees thereunder in certain circumstances, in connection with a change of control of our company, which could discourage, delay or prevent a merger or acquisition at a premium price. In addition, our credit facility includes, and other debt instruments we may enter into in the future may include, provisions entitling the lenders to demand immediate repayment of all borrowings upon the occurrence of certain change of control events relating to our company, which also could discourage, delay or prevent a business combination transaction. See “Description of Capital Stock—Provisions of Our Certificate of Incorporation, Bylaws and Delaware Law That May Have an Anti-Takeover Effect” in the accompanying prospectus.

Our amended and restated certificate of incorporation includes an exclusive forum clause, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us.

Our amended and restated certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the sole and exclusive forum for any stockholder (including any beneficial owner) to bring (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or employees to us or to our stockholders, (iii) any action asserting a claim arising pursuant to any provision of the DGCL or our certificate of incorporation or bylaws or (iv) any action asserting a claim governed by the internal affairs doctrine, is a state court located within the State of Delaware (or, if no state court located within the State of Delaware has jurisdiction or declines to accept jurisdiction, the federal district court for the District of Delaware); in all cases subject to such court having personal jurisdiction over the indispensable parties named as defendants.

In addition, our amended and restated certificate of incorporation provides that the federal district courts of the United States are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act but that the forum selection provision does not apply to claims brought to enforce a duty or liability created by the Exchange Act. Although we believe these provisions benefit us by providing increased consistency in the application of Delaware law for the specified types of actions and proceedings, the provisions may have the effect of discouraging lawsuits against us or our directors and officers. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, financial condition, and results of operations.

Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock is deemed to have notice of and consented to the foregoing provisions. The exclusive forum clause may limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us. See “Description of Capital Stock—Exclusive Forum Clause” in the accompanying prospectus.

USE OF PROCEEDS

We estimate our net proceeds from this offering will be approximately \$146.9 million (or approximately \$169.0 million if the underwriters exercise in full their option to purchase additional shares), after deducting underwriting discounts and commissions and estimated offering expenses payable by us. We intend to use the net proceeds from the sale of the common stock offered by us pursuant to this prospectus supplement for general corporate purposes. General corporate purposes may include, among other things, funding acquisitions or business expansion, working capital, capital expenditures such as investments in research, development and software, or the repayment of debt. We expect that any repayment of debt would be amounts outstanding under our revolving credit facility, the terms of which, including the interest rate and maturity thereof, are described in Note 13 to our unaudited condensed consolidated financial statements included in our Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2021 incorporated herein by reference.

Pending use of the net proceeds from this offering described above, we may invest the net proceeds in short-and intermediate-term interest-bearing obligations, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the United States government.

CERTAIN MATERIAL U.S. FEDERAL TAX CONSIDERATIONS

The following is a summary of certain U.S. federal income tax considerations relating to the purchase, ownership and disposition of the shares of our common stock, as of the date hereof. This summary deals only with shares of our common stock purchased in this offering for cash and held as capital assets. This summary does not deal with special situations. For example, this summary does not address:

- tax consequences to holders who may be subject to special tax treatment, such as dealers in securities or currencies, financial institutions, regulated investment companies, real estate investment trusts, certain former U.S. citizens or long-term residents, tax-exempt entities, traders in securities that elect to use a mark-to-market method of accounting for their securities, controlled foreign corporations, passive foreign investment companies or insurance companies;
- tax consequences to persons holding shares of our common stock as part of a hedging, integrated or conversion transaction or a straddle or persons deemed to sell shares of our common stock under the constructive sale provisions of the Internal Revenue Code of 1986, as amended (the “Code”);
- tax consequences to U.S. holders of shares of our common stock whose “functional currency” is not the U.S. dollar;
- tax consequences to partnerships or other pass-through entities for U.S. federal income tax purposes and investors in such entities; or
- alternative minimum tax consequences, if any.

Finally, this summary does not address U.S. federal tax consequences other than income taxes (such as estate and gift tax consequences) or any state, local or foreign tax consequences.

The discussion below is based upon the provisions of the Code and U.S. Treasury regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, or interpreted differently so as to result in U.S. federal income tax consequences different from those discussed below. This summary does not address all aspects of U.S. federal income taxation and does not deal with all tax consequences that may be relevant to holders in light of their personal circumstances.

If an entity (or arrangement) classified as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding shares of our common stock, you should consult your tax advisor.

If you are considering the purchase of shares of our common stock, you should consult your own tax advisors concerning the U.S. federal income tax consequences to you in light of your particular facts and circumstances and any consequences arising under the laws of any state, local, foreign or other taxing jurisdiction.

Consequences to U.S. Holders

The following is a summary of the U.S. federal income tax consequences that will apply to a U.S. holder of shares of our common stock. “U.S. holder” means a beneficial owner of common stock for U.S. federal income tax purposes that is:

- an individual who is a citizen or resident of the United States;
- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

[Table of Contents](#)

- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if (1) it is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

Distributions

A distribution in respect of shares of our common stock generally will be treated as a dividend to the extent of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Subject to certain holding period requirements, dividends that constitute “qualified dividend” income received by non-corporate U.S. holders generally will be subject to taxation at the lower applicable capital gains rate. If a U.S. holder is a U.S. corporation, it may be eligible to claim the dividends-received deduction allowed to U.S. corporations in respect of dividends received from other U.S. corporations equal to a portion of any dividends received, subject to generally applicable limitations on that deduction.

If the distribution exceeds current and accumulated earnings and profits, the excess will be treated as a nontaxable return of capital reducing the U.S. holder’s tax basis in the common stock to the extent of the U.S. holder’s tax basis in that stock. Any remaining excess will be treated as capital gain from the sale or exchange of our common stock.

U.S. holders should consult their tax advisors regarding the holding period and other requirements that must be satisfied in order to qualify for the dividends-received deduction and the reduced maximum tax rate for qualified dividend income.

Sale, Exchange, Certain Redemptions or Other Taxable Dispositions of our Common Stock

Upon a sale, exchange, redemption (provided the redemption is treated as a sale or exchange for U.S. federal income tax purposes) or certain other taxable dispositions of our common stock, a U.S. holder generally will recognize capital gain or loss equal to the difference between (i) the amount of cash and the fair market value of any property received upon such taxable disposition and (ii) the U.S. holder’s adjusted tax basis in the common stock. Such capital gain or loss will be long-term capital gain or loss if a U.S. holder’s holding period in the common stock is more than one year at the time of the taxable disposition. In the case of certain non-corporate U.S. holders (including individuals), long-term capital gain generally will be subject to tax at a reduced rate of taxation. The deductibility of capital losses is subject to limitations.

Medicare Tax

A U.S. person that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the U.S. person’s “net investment income” for the relevant taxable year and (2) the excess of the U.S. person’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000 depending on the individual’s circumstances). Net investment income generally includes dividends and net gains from the disposition of our common stock, unless such dividend or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. holder that is an individual, estate or trust should consult its tax advisor regarding the applicability of the Medicare tax to its income and gains in respect of its investment in the common stock.

Information Reporting and Backup Withholding

When required, we or our paying agent will report to the U.S. holders of our common stock and to the U.S. Internal Revenue Service, or the IRS, amounts paid on or with respect to the common stock during each calendar

[Table of Contents](#)

year and the amount of tax, if any, withheld from such payments. A U.S. holder will be subject to backup withholding on any dividends paid on our common stock and proceeds from the sale or other taxable disposition of our common stock at the applicable rate if the U.S. holder (a) fails to provide us or our paying agent with a correct taxpayer identification number or certification of exempt status, (b) has been notified by the IRS that it is subject to backup withholding as a result of the failure to properly report payments of interest or dividends or (c) in certain circumstances, has failed to certify under penalty of perjury that it is not subject to backup withholding. A U.S. holder may be eligible for an exemption from backup withholding by providing a properly completed IRS Form W-9 to us or our paying agent. Any amounts withheld under the backup withholding rules will generally be allowed as a refund or a credit against a U.S. holder's U.S. federal income tax liability provided the required information is properly furnished to the IRS by the U.S. holder on a timely basis.

Consequences to Non-U.S. Holders

The term "non-U.S. holder" means a beneficial owner of shares of common stock that is, for U.S. federal income tax purposes, an individual, corporation, trust or estate that is not a U.S. holder.

Distributions

Except as described in the next paragraph and subject to the discussions below of backup withholding and the Foreign Account Tax Compliance Act, any distributions treated as dividends (see "Consequences to U.S. Holders—Distributions" above) paid to a non-U.S. holder with respect to the shares of our common stock will be subject to withholding tax at a 30% rate or such lower rate as specified by an applicable income tax treaty. To receive the benefit of a reduced treaty rate, a non-U.S. holder must furnish to us or our paying agent a valid IRS Form W-8BEN or W-8BEN-E (or suitable successor or substitute form) certifying such non-U.S. holder's qualification for the reduced rate. Non-U.S. holders that do not timely provide us or our paying agent with the required certification, but that qualify for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

If a non-U.S. holder holds shares of our common stock in connection with the conduct of a trade or business in the United States, and dividends paid on the shares of our common stock are effectively connected with such non-U.S. holder's U.S. trade or business (and if required by an applicable income tax treaty, attributable to a permanent establishment maintained by the non-U.S. holder in the United States), the non-U.S. holder will be exempt from U.S. federal withholding tax. To claim the exemption, the non-U.S. holder must generally furnish to us or our paying agent a properly executed IRS Form W-8ECI (or suitable successor or substitute form). However, dividends paid on shares of our common stock that are effectively connected with a non-U.S. holder's U.S. trade or business (and if required by an applicable income tax treaty, attributable to a permanent establishment maintained by the non-U.S. holder in the United States) generally will be subject to U.S. federal income tax on a net income basis at the regular graduated U.S. federal income tax rates in much the same manner as if such non-U.S. holder were a U.S. holder. Any such effectively connected dividends received by a foreign corporation may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or such lower rate as specified by an applicable income tax treaty.

Distributions in excess of our current and accumulated earnings and profits will first constitute a return of capital and reduce a non-U.S. holder's basis in our common stock, but not below zero, and then will be treated as described under "—Sale, Exchange, Certain Redemptions or Other Taxable Dispositions of our Common Stock" below.

Sale, Exchange, Certain Redemptions or Other Taxable Dispositions of our Common Stock

Subject to the discussions below regarding backup withholding and the Foreign Account Tax Compliance Act, any gain realized by a non-U.S. holder upon the sale, exchange, redemption (provided the redemption is

[Table of Contents](#)

treated as a sale or exchange for U.S. federal income tax purposes) or other taxable disposition of shares of our common stock will not be subject to U.S. federal income tax with respect to such gain unless:

- that gain is effectively connected with the conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment maintained by the non-U.S. holder);
- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or
- we are or have been a “United States real property holding corporation” during the shorter of the five-year period preceding the disposition or the non-U.S. holder’s holding period (the “applicable statutory period”) and certain other requirements are satisfied. We believe that we are not, and we do not anticipate becoming, a United States real property holding corporation for U.S. federal income tax purposes.

A non-U.S. holder described in the first bullet point above will be subject to U.S. federal income tax on the net gain derived from the sale or other taxable disposition at the regular graduated rates generally in the same manner as a U.S. holder. If a non-U.S. holder is eligible for the benefits of a tax treaty between the United States and its country of residence, any such gain will be subject to U.S. federal income tax in the manner specified by the treaty. To claim the benefit of a treaty, a non-U.S. holder must properly submit an IRS Form W-8BEN or W-8BEN-E (or suitable successor or substitute form). A non-U.S. holder that is a foreign corporation and is described in the first bullet point above in addition may be subject to a branch profits tax equal to 30% of its effectively connected earnings and profits for that taxable year, or at a lower rate if so specified by an applicable income tax treaty.

An individual non-U.S. holder described in the second bullet point above will be subject to a flat 30% U.S. federal income tax on the gain derived from the sale, which may be offset by certain U.S. source capital losses (even though such holder is not considered a resident of the United States) provided such non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

Information Reporting and Backup Withholding

Generally, we must report to the IRS and to non-U.S. holders the amount of dividends and non-dividend distributions paid to the non-U.S. holder and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such payments and any withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty.

In general, a non-U.S. holder will not be subject to backup withholding with respect to payments of dividends that we make to the holder if the non-U.S. holder certifies under penalty of perjury that it is not a U.S. person (and we do not have actual knowledge or reason to know that the holder is a U.S. person), such as by furnishing a valid IRS form W-8BEN, W-8BEN-E or W-8ECI, or otherwise establishes an exemption. A non-U.S. holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to the proceeds of the sale or other disposition of shares of our common stock within the United States or conducted through certain U.S.-related payors, unless the payor of the proceeds receives the statement described above (and the payor does not have actual knowledge or reason to know that the holder is a U.S. person, as defined under the Code) or the holder otherwise establishes an exemption.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a holder’s U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act, or FATCA, provides that a 30% withholding tax will be imposed on certain payments (including dividends) made to a foreign financial institution (as specifically defined in the Code) and certain other foreign entities if such entity fails to satisfy certain disclosure and reporting rules or otherwise qualify for an exemption from these rules. FATCA generally requires that (i) in the case of a foreign financial institution, the entity identifies and provides information in respect of financial accounts with such entity held (directly or indirectly) by U.S. persons and U.S.-owned foreign entities and (ii) in the case of a non-financial foreign entity, the entity identifies and provides information in respect of substantial U.S. owners of such entity. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in clause (i) above, then pursuant to an agreement between it and the United States Treasury or an intergovernmental agreement between, generally, the jurisdiction in which it is resident and the United States Treasury, it must, among other things, undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts and withhold 30% on payments to non-compliant foreign financial institutions and certain other account holders.

While withholding under FATCA would generally also have applied to gross proceeds from the sale or other disposition of shares of our common stock on or after January 1, 2019, recently proposed U.S. Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers generally may rely on these proposed U.S. Treasury Regulations until final U.S. Treasury Regulations are issued. You should consult your tax advisor regarding the possible effect of FATCA on your investment in shares of our common stock.

The preceding discussion of certain U.S. federal income tax consequences is for general information only and is not tax advice. Accordingly, each investor should consult its own tax advisor as to particular tax consequences to it of purchasing, holding and disposing of shares of our common stock, including the applicability and effect of any state, local or foreign tax laws, and of any pending or subsequent changes in applicable laws.

UNDERWRITING

We are offering the shares of common stock described in this prospectus through a number of underwriters. J.P. Morgan Securities LLC, BofA Securities, Inc. and William Blair & Company, L.L.C. are acting as joint book-running managers of the offering and as representatives of the underwriters. We have entered into an underwriting agreement with the underwriters. Subject to the terms and conditions of the underwriting agreement, we have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus, the number of shares of common stock listed next to its name in the following table:

Name	Number of Shares
J.P. Morgan Securities LLC	768,939
BofA Securities, Inc.	768,939
William Blair & Company, L.L.C.	768,939
Stifel, Nicolaus & Company	62,785
Needham & Company, LLC	62,785
Capital One Securities, Inc.	48,295
BNP Paribas Securities Corp.	19,318
Total	2,500,000

The underwriters are committed to purchase all of the shares of common stock offered by us if they purchase any shares. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or the offering may be terminated.

The underwriters propose to offer the shares of common stock directly to the public at the public offering price set forth on the cover page of this prospectus and to certain dealers at that price less a concession not in excess of \$1.581 per share. Any such dealers may resell shares to certain other brokers or dealers at a discount of up to \$0.682 per share from the public offering price. After the offering of the shares to the public, if all of the shares of common stock are not sold at the public offering price, the underwriters may change the offering price and the other selling terms. Sales of any shares made outside of the United States may be made by affiliates of the underwriters.

The underwriters have an option to buy up to 375,000 additional shares of common stock from us. The underwriters have 30 days from the date of this prospectus to exercise this option to purchase additional shares. If any shares are purchased with this option to purchase additional shares, the underwriters will purchase shares in approximately the same proportion as shown in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered.

The underwriting fee is equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The underwriting fee is \$2.945 per share. The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	Without option to purchase additional shares exercise	With full option to purchase additional shares exercise
Per Share	\$ 2.945	\$ 2.945
Total	\$ 7,362,500	\$ 8,466,875

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding the underwriting discounts and commissions, will be

[Table of Contents](#)

approximately \$750,000. We have agreed to reimburse the underwriters for expenses relating to clearance of this offering with the Financial Industry Regulatory Authority up to \$15,000.

A prospectus in electronic format may be made available on the web sites maintained by one or more underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters and selling group members that may make Internet distributions on the same basis as other allocations.

We have agreed that we will not (i) directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of our common stock or any securities convertible into or exercisable or exchangeable for shares of our common stock, or file or confidentially submit any registration statement under the Securities Act with respect to any of the foregoing, or (ii) enter into any swap or any other agreement or transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of our common stock, whether any such swap or transaction described in (i) or (ii) above is to be settled by delivery of shares of common stock or other securities, in cash or otherwise, in each case without the prior written consent of the representatives for a period of 60 days after the date of this prospectus, other than the shares of our common stock to be sold in this offering.

The restrictions on our actions, as described above, do not apply to certain transactions, including (i) any shares of common stock issued by us upon the exercise (including any net exercise or exercise by delivery of already-owned shares of common stock) of an option or warrant or the conversion of a security outstanding on the date of the underwriting agreement and referred to in this prospectus; (ii) any shares of our common stock (restricted or otherwise), options to purchase common stock, restricted stock units covering shares of common stock or other equity incentive awards granted pursuant to our existing employee benefit, non-employee director compensation or other equity incentive plans referred to in this prospectus; (iii) our filing of a registration statement with the SEC on Form S-8 or a successor form thereto with respect to the registration of securities to be offered under any plans or programs referred to in (ii) above; or (iv) the sale or issuance of or entry into an agreement to sell or issue shares of our common stock or securities convertible into or exercisable or exchangeable for shares of our common stock in connection with any (a) merger, (b) acquisition of securities, businesses, property or other assets, (c) joint venture, (d) commercial relationship or (e) other strategic alliance or relationship, provided, that the aggregate number of shares of our common stock, or securities convertible into or exercisable or exchangeable for shares of our common stock (on an as-converted, as-exercised or as-exchanged basis, as the case may be), that we may sell or issue or agree to sell or issue does not exceed 7.5% of the total number of shares of our common stock issued and outstanding immediately following the completion of the transactions contemplated by the underwriting agreement, and provided further, that, under certain circumstances, each such recipient during the 60-day restricted period enters into a lock-up agreement with the representatives for the remainder of such 60-day restricted period to the extent such recipient did not previously enter into such an agreement with the representatives and we will impose stop-transfer instructions with respect to the shares of our common stock or other securities that are subject to such agreements during such 60-day restricted period.

Our directors and executive officers have entered into lock-up agreements with the underwriters prior to the commencement of this offering pursuant to which each lock-up party, with limited exceptions, for a period of 60 days after the date of this prospectus, may not, without the prior written consent of the representatives, (1) directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock, whether owned on the date of the underwriting agreement or thereafter acquired by the lock-up party or with respect to which the lock-up party had on the date thereof or thereafter acquired the power of disposition (collectively with the common stock, the "lock-up securities") or exercise any right with respect to the registration of any of the lock-up securities, or file, cause to be filed or cause to be confidentially submitted any registration statement in connection therewith under the Securities Act, or (2) enter into any swap, loan or any

other agreement or transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of the lock-up securities, whether any such swap, loan or transaction is to be settled by delivery of our common stock or other securities, in cash or otherwise.

The restrictions described in the immediately preceding paragraph and contained in the lock-up agreements between the underwriters and our directors and executive officers do not apply, subject in certain cases to various conditions, to certain transactions, including (a) transfers of lock-up securities: (i) as a bona fide gift or gifts or charitable contribution, (ii) to a trust, partnership, limited liability company or other entity for the direct or indirect benefit of the lock-up party or a member of the lock-up party's immediate family or to a member of the lock-up party's immediate family, (iii) upon death or by will, other testamentary document or intestate succession, (iv) for bona fide tax or estate planning purposes, (v) as a distribution to limited partners, partners, stockholders, limited liability company members, or other equityholders of the lock-up party, (vi) to the lock-up party's affiliates or to any investment fund or other entity controlled or managed by the lock-up party, (vii) pursuant to an order of a court or regulatory agency or pursuant to a qualified domestic order or in connection with a divorce settlement; provided, that any filing under Section 16(a) of the Exchange Act in connection with such transfer will indicate that such transfer is in connection with one or more of the foregoing, (viii) to a nominee or custodian of a person or entity to whom a disposition or transfer would be permissible under (i)—(vii) above; provided, that any filing under Section 16(a) of the Exchange Act with respect to a disposition or transfer otherwise permissible under (vii) above will be subject to the proviso in (vii) above, (ix) after the completion of this offering, pursuant to a bona-fide third-party tender offer, merger, consolidation or other similar transaction made to all holders of our common stock involving a change of control of our company that has been approved by our board of directors, provided that in the event that the change of control is not consummated, such common stock would remain subject to the restrictions in the immediately preceding paragraph, (x) to us or our subsidiaries (A) in connection with the repurchase of the lock-up party's common stock upon death, disability or termination of employment of the lock-up party pursuant to an employment agreement, a shareholders' agreement (or equivalent) or equity award in existence on the date of the lock-up agreement, (B) pursuant to arrangements under which we have the option to repurchase such shares or a right of first refusal with respect to transfers of such securities or (C) in the exercise of outstanding options, warrants, restricted stock units or other equity interests, including transfers deemed to occur upon the "net" or "cashless" exercise of options or for the sole purpose of paying the exercise price of such options, warrants, restricted stock units or other equity interests or for paying taxes (including estimated taxes) due as a result of the exercise of such options, warrants, restricted stock units or other equity interests or as a result of the vesting of common stock under restricted stock awards, in each case pursuant to our equity incentive plans or other arrangement disclosed in this prospectus; provided, that any filing under Section 16(a) of the Exchange Act with respect to a transaction described in this clause (x) will clearly indicate in the footnotes thereto that (I) the filing relates to the circumstances described in (A), (B) or (C), as the case may be, (II) the reason for the disposition and (III) the disposition was solely to us; provided, further, that any common stock received upon such exercise or other event described in (C) would remain subject to the restrictions in the immediately preceding paragraph or (xi) as a sale of common stock under a trading plan pursuant to Rule 10b5-1 under the Exchange Act that is existing as of the date of the underwriting agreement and has been disclosed to the representatives; provided, that any filing under Section 16(a) of the Exchange Act with respect to a transaction described in this clause (xi) will clearly indicate in the footnotes thereto that such sales have been executed pursuant to such trading plan.

The representatives, in their sole discretion, may release the securities subject to any of the lock-up agreements with the underwriters described above, in whole or in part at any time.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

Our common stock is listed on the NYSE under the symbol "MEG".

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of common stock in the open market for the purpose of preventing

[Table of Contents](#)

or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. Short sales may be “covered” shorts, which are short positions in an amount not greater than the underwriters’ option to purchase additional shares referred to above, or may be “naked” shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their option to purchase additional shares, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriters will consider, among other things, the price of shares available for purchase in the open market compared to the price at which the underwriters may purchase shares through the option to purchase additional shares. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market that could adversely affect investors who purchase in this offering. To the extent that the underwriters create a naked short position, they will purchase shares in the open market to cover the position.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase common stock in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the NYSE, in the over-the-counter market or otherwise.

Certain of the underwriters and their affiliates have provided in the past to us and our affiliates and may provide from time to time in the future certain commercial banking, financial advisory, investment banking and other services for us and such affiliates in the ordinary course of their business, for which they have received and may continue to receive customary fees and commissions. In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or the account of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future.

There can be no assurance that future developments affecting us will be those that we have anticipated. Actual results may differ materially from these expectations due to changes in global, regional or local political, economic, business, competitive, market, regulatory and other factors, many of which are beyond our control, as well as the other factors described in the section entitled "Risk Factors" and in our SEC filings incorporated herein or in any prospectus supplement by reference. Further, many of these factors are, and may continue to be, amplified by the COVID-19 pandemic.

Additional factors or events that could cause our actual results to differ may also emerge from time to time, and it is not possible for us to predict all of them. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove to be incorrect, our actual results may vary in material respects from what we may have expressed or implied by any forward-looking statement and, therefore, you should not regard any forward-looking statement as a representation or warranty by us or any other person that we will successfully achieve the expectation, plan or objective expressed in such forward-looking statement in any specified time frame, or at all. ABOUT THE COMPANY

The Environment is Our Business.

Since our inception in 2012, our mission has been to help clients and communities meet their environmental goals and needs. Today, we have emerged as one of the fastest growing companies in a highly fragmented and growing global environmental industry.

Our industry is highly fragmented with no single market leader. By focusing on environmental solutions, we believe we are uniquely positioned to become a leading platform in the industry. We provide a diverse range of environmental services to our private and public sector clients across the life cycle of their needs—whether they are launching new projects, maintaining operations, decommissioning operations, rehabilitating assets, managing the impacts of climate change or responding to unexpected environmental disruption. Our integrated platform has been a catalyst for our organic growth and we have built on this platform through strategic acquisitions.

Innovation is core to our strategy. The world's environmental challenges continue to grow in number, scope and complexity, and mounting public pressure and regulatory changes continue to drive demand for better information and solutions. We focus on innovation in order to improve the quality of information we can provide to clients (such as identifying variations of Per- and polyfluoroalkyl substances, or PFAS, in water) and provide better solutions to their environmental needs (such as the efficient removal of PFAS from contaminated water). We intend to continue innovating by investing in research, development and technology (directly and through strategic partnerships) to develop better solutions for our clients. We believe these investments—together with our investments in geographic expansion, sales and marketing initiatives, environmental service offerings and strategic acquisitions—will continue to distinguish us in the marketplace.

Our revenue and earnings are highly resilient. We are not dependent upon any single service, product, political approach or regulatory framework. We also serve a diverse set of more than 4,500 clients across a wide variety of end markets and geographies within the private and public sectors. Funding for our services is typically non-discretionary given regulatory drivers and public health concerns. As a result, our business is positioned to be less susceptible to political and economic cycles. Our approach has allowed us to successfully scale our business, and we believe we are well positioned to continue our trajectory and market leadership as we address the growing environmental needs of our clients and communities.

We provide environmental services to our clients through three business segments – Assessment, Permitting and Response, Measurement and Analysis and Remediation and Reuse.

Assessment, Permitting and Response

Through our Assessment, Permitting and Response segment, we provide scientific advisory and consulting services to support environmental assessments, environmental emergency response and environmental audits and permits for current operations, facility upgrades, new projects, decommissioning projects and development projects. Our technical advisory and consulting offerings include regulatory compliance support and planning, environmental, ecosystem and toxicological assessments and support during responses to environmental disruptions. We help clients navigate regulations at the local, state, provincial and federal levels. In addition to environmental toxicology, and given our expertise in helping businesses plan for and respond to disruptions, our scientists and response teams have helped clients navigate their preparation for and response to the COVID-19 pandemic.

Measurement and Analysis

Through our Measurement and Analysis segment, our highly credentialed teams test and analyze air, water and soil to determine concentrations of contaminants, including emerging contaminants such as PFAS, as well as

[Table of Contents](#)

determine the toxicological impact of contaminants on flora, fauna and human health. Our offerings include source and ambient air testing and monitoring, leak detection and advanced analytical laboratory services such as air, storm water, wastewater and drinking water analysis.

Remediation and Reuse

Through our Remediation and Reuse segment, we provide clients with engineering, design, implementation and operations and maintenance services, primarily to treat contaminated water, remove contaminants from soil or create biogas from agricultural waste. We do not own the properties or facilities at which we implement these projects or the underlying liabilities, nor do we own material amounts of the equipment used in projects; instead, we assist our clients in designing solutions, managing projects and mitigating their environmental risks and liabilities.

Corporate Information

We were incorporated in Delaware in November 2013. Our principal executive offices are located at 5120 Northshore Drive, North Little Rock, Arkansas 72118 and our telephone number is (501) 900-6400. Our website address is www.montrose-environmental.com. Information contained on our website or linked therein or otherwise connected thereto does not constitute part of nor is it incorporated by reference into this prospectus, any prospectus supplement or the registration statement of which this prospectus forms a part, and the inclusion of our website address in this prospectus is an inactive textual reference only.

Implications of Being an Emerging Growth Company

As a company with less than \$1.07 billion in revenue during our most recently completed fiscal year, we qualify as an “emerging growth company” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As an emerging growth company, we may take advantage of specified reduced disclosure and other requirements that are otherwise applicable generally to public companies that are not emerging growth companies. These provisions include:

- reduced disclosure about our executive compensation arrangements in our periodic reports, proxy statements and registration statements;
- exemption from non-binding stockholder advisory votes on executive compensation or golden parachute arrangements; and
- exemption from the auditor attestation requirement in the assessment of our internal control over financial reporting.

We may take advantage of these exemptions for up to five years or such earlier time that we are no longer an emerging growth company. We will cease to be an emerging growth company upon the earliest of: (i) the end of the fiscal year following the fifth anniversary of our initial public offering, which occurred in July 2020; (ii) the last day of the fiscal year during which our annual gross revenues are \$1.07 billion or more; (iii) the date on which we have, during the previous three-year period, issued more than \$1.0 billion in non-convertible debt securities; or (iv) the end of any fiscal year in which the market value of our common stock held by non-affiliates exceeded \$700.0 million as of the end of the second quarter of that fiscal year.

As June 30, 2021, the end of our second fiscal quarter, the market value of our common stock held by non-affiliates exceeded \$700.0 million and, as a result, we will no longer qualify as an emerging growth company as of December 31, 2021.

We have elected to take advantage of certain reduced disclosure obligations in the documents incorporated by reference in this prospectus, and we may elect to take advantage of other reduced disclosure obligations in

[Table of Contents](#)

future filings with the SEC while we remain an emerging growth company. If we do, the information that we provide stockholders may be different than what you might receive from other public reporting companies in which you may have equity interests.

The JOBS Act permits an emerging growth company such as us to take advantage of an extended transition period to comply with new or revised accounting standards applicable to public companies. We have chosen to “opt in” to this extended transition period for complying with new or revised accounting standards and, as a result, we will not be subject to the same new or revised accounting standards as other public companies that comply with such new or revised standards on a non-delayed basis.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties and other factors described in “Risk Factors” in any prospectus supplement. You should also consider the risks, uncertainties and other factors described in “Risk Factors” and elsewhere in our most recent Annual Report on Form 10-K, as supplemented and updated by subsequent Quarterly Reports on Form 10-Q, that we have filed or will file with the SEC, and in other documents which are incorporated by reference in this prospectus, as well as the risk factors and other information contained in or incorporated by reference in any accompanying prospectus supplement and any related free writing prospectus. If any of these or any unanticipated risks actually occurs, our business, financial condition and results of operations could be materially and adversely affected and the trading price of our common stock could decline, causing you to lose some or all of your investment in our common stock.

Additionally, the COVID-19 pandemic may amplify many of the risks to which we are subject and, given the unpredictable, unprecedented and fluid nature of the pandemic, it may materially and adversely affect us in ways that are not anticipated by or known to us or that we do not presently consider to present significant risk. Therefore, we are unable to estimate the extent to which the pandemic and its related impacts will adversely affect our business, financial condition and results of operations as well as our stock price.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, we intend to use the net proceeds from the sale of the common stock offered by us pursuant to this prospectus and any accompanying prospectus supplement for general corporate purposes. General corporate purposes may include, among other things, funding acquisitions or business expansion, working capital, capital expenditures or the repayment or redemption of debt or other securities. We may temporarily invest funds that are not immediately needed for these or other purposes in short-term investments, including, but not limited to, marketable securities. Unless otherwise set forth in a prospectus supplement, we will not receive any proceeds in the event that securities are sold by a selling stockholder.

SELLING STOCKHOLDERS

Information regarding selling stockholders, including their identities, the securities to be registered on their behalf and the amounts sold by them, where applicable, will be set forth in a prospectus supplement, in a post-effective amendment to the registration statement of which this prospectus forms a part, or in filings we make with the SEC under the Exchange Act that are incorporated by reference in this prospectus.

DESCRIPTION OF CAPITAL STOCK

The following is a summary of the material provisions of our capital stock, as well as other material terms of our amended and restated certificate of incorporation and our amended and restated bylaws. This summary does not purport to be complete and is subject to and qualified in its entirety by our amended and restated certificate of incorporation and our amended and restated bylaws, copies of which are incorporated by reference as exhibits to the registration statement of which this prospectus forms a part.

General

Our authorized capital stock consists of 190,000,000 shares of common stock, par value \$0.000004 per share, and 10,029,500 shares of preferred stock, par value \$0.0001 per share.

Common Stock

Our amended and restated certificate of incorporation authorizes the issuance of up to 190,000,000 shares of common stock. All outstanding shares of common stock are validly issued, fully paid and nonassessable.

The holders of our common stock are entitled to one vote per share on all matters submitted to a vote of stockholders and our amended and restated certificate of incorporation does not provide for cumulative voting in the election of directors. Subject to preferences that may be applicable to any outstanding series of preferred stock, the holders of our common stock will receive ratably any dividends declared by our board of directors out of funds legally available for the payment of dividends. In the event of our liquidation, dissolution or winding-up, the holders of our common stock will be entitled to share ratably in all assets remaining after payment of or provision for any liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding.

Preferred Stock

Series A-1 Preferred Stock

Our board of directors has designated 12,000 shares of preferred stock as Cumulative Series A-1 Preferred Stock. We redeemed and retired all outstanding shares of Series A-1 preferred stock in July 2020 in connection with our initial public offering, or the IPO.

Series A-2 Preferred Stock

Our board of directors has designated 17,500 shares of preferred stock as Cumulative Series A-2 Preferred Stock. As of the date of this prospectus, there were 17,500 shares of the Series A-2 preferred stock issued and outstanding.

Effective immediately upon consummation of our IPO, the certificate of designation for the Series A-2 preferred stock granted holders of our Series A-2 preferred stock the right to receive cumulative dividends, accruing daily and compounded quarterly, at a rate of 9.0% per annum, on the then-stated value of each share of Series A-2 preferred stock (initially \$10,000 per share). Prior to the IPO, the certificate of designation for the Series A-2 preferred stock granted holders of our Series A-2 preferred stock the right to receive cumulative dividends, accruing dividends at the rate of 15% per annum, with respect to dividends that were paid in cash, and 14.2% per annum, with respect to dividends that accrued before a private offering, and 9.0% following a private offering (in certain circumstances), on the then-stated value of each share of Series A-2 preferred stock (initially \$10,000 per share), and dividends accrue whether or not earned or declared by our board of directors, and in preference to the holders of any and all other series or classes of capital stock, with the stated value increased by the amount of any accrued dividend. We may not issue any equity securities ranking equal or senior to the

[Table of Contents](#)

Series A-2 preferred stock so long as any shares of Series A-2 preferred stock remain outstanding, other than (i) with the consent of the holders of at least a majority of the stated value of Series A-2 preferred stock then outstanding, or (ii) permitted indebtedness up to a maximum of 4.5 times our trailing twelve month adjusted pro forma EBITDA (as calculated pursuant to the terms of the certificate of designations of the Series A-2 preferred stock).

Except as required by Delaware law or as otherwise provided by our certificate of incorporation or the certificate of designation with respect to certain protective matters, the holders of Series A-2 preferred stock do not have any voting rights. Notwithstanding the foregoing and for so long as any shares of Series A-2 preferred stock are outstanding, the holders of a majority of the outstanding shares of Series A-2 preferred stock will have the right, voting as a separate class, to elect one director, to serve until the earlier of the time his or her successor is appointed or elected, unless such director is earlier removed, resigns or is otherwise unable to serve. Additionally, if certain events of noncompliance have occurred, are continuing and have not been cured within 30 days of notice thereof, the holders of a majority of the outstanding shares of Series A-2 preferred stock will have the right, voting as a separate class, to elect an additional director, to serve until the earlier of the time such event of noncompliance has been cured, there ceases to be any shares of Series A-2 preferred stock outstanding or his or her successor is appointed or elected, unless such director is earlier removed, resigns or is otherwise unable to serve.

We may, at our option, redeem some or all of the outstanding shares of Series A-2 preferred stock, in no less than \$25.0 million increments (unless less than \$25.0 million of the stated value of Series A-2 preferred stock is then outstanding), at a price per share equal to the sum of the then-stated value per share plus any accrued and unpaid dividends not accounted for in the then-stated value, plus (to the extent such redemption occurs prior to the third anniversary of the issuance of the Series A-2 preferred stock), a make whole amount as of such redemption date equivalent to the remaining dividends that would accrue with respect to such shares prior to the three-year anniversary of the issuance. At any time after the fourth anniversary of the issuance of the Series A-2 preferred stock, the holders of the Series A-2 preferred stock will have the option to require us to convert, initially, up to \$60.0 million aggregate stated value of the Series A-2 preferred stock into shares of our common stock, with the permitted amount of Series A-2 preferred stock to be converted increasing at each subsequent anniversary of the issuance in \$60 million increments until the sixth anniversary, after which all of the Series A-2 preferred stock may be converted at the holder's option; provided, that until the seventh anniversary, no more than \$60.0 million aggregate stated value may be converted in any 60-day period; and provided, further, that for a period of ninety (90) days following notice of a holder's election to have its shares of Series A-2 preferred stock converted, we will have the option to redeem for cash such shares elected to be converted in lieu of converting them into shares of common stock. Each share of Series A-2 preferred stock we do not elect to redeem for cash will be convertible into the number of shares of common stock equal to the sum of the then-stated value plus all accrued and unpaid dividends, divided by the conversion price. The conversion price is equal to 85% of the volume-weighted average price of our common stock for the ten trading days immediately preceding the conversion date.

The certificate of designations includes certain restrictive covenants, including with respect to restricted payments, dividends and other payments to common stockholders and the consummation of certain acquisitions without consent.

In addition to the directorship described above, the holders of Series A-2 preferred stock are entitled to the following remedies during any period when we are not in compliance with certain terms of the certificate of designations following a cure period of 30 days after notice thereof (except in connection with a failure to pay dividends when due): an increase in the annual dividend rate from 9% per annum to 12% per annum for the first 90 day period from and including the date on which such event of noncompliance occurred and 14% thereafter, and restrictions on our ability to declare any dividends or distributions, or otherwise repurchase, redeem or acquire any of our or our subsidiaries' capital stock, or to consummate acquisitions otherwise permitted by the terms of the certificate of designations.

[Table of Contents](#)

The foregoing summary of the terms of the Series A-2 preferred stock is not complete and is subject in its entirety to the complete text of the certificate of designations, the form of which is incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part and is incorporated herein by reference.

Authorization Following this Offering

Our amended and restated certificate of incorporation provides that our board of directors has the authority, without further action by the stockholders, to issue up to 10,000,000 additional shares of preferred stock. Our board of directors is able to issue preferred stock in one or more series and determine the rights, preferences, privileges, qualifications and restrictions granted to or imposed upon our preferred stock, including dividend rights, conversion rights, voting rights, rights and terms of redemption, liquidation preferences and sinking fund terms, any or all of which may be greater than the rights of our common stock. Issuances of preferred stock could adversely affect the voting power of holders of our common stock and reduce the likelihood that holders of our common stock will receive dividend payments and payments upon liquidation. Any issuance of preferred stock could also have the effect of decreasing the market price of our common stock and could delay, deter or prevent a change in control of our company. Our board of directors does not presently have any plans to issue shares of preferred stock.

Limitations on Directors' Liability

Our governing documents limit the liability of, and require us to indemnify, our directors to the fullest extent permitted by the Delaware General Corporation Law, or the DGCL. The DGCL permits a corporation to limit or eliminate a director's personal liability to the corporation or the holders of its capital stock for breach of fiduciary duty. This limitation is generally unavailable for acts or omissions by a director which (i) were not in good faith, (ii) were the result of intentional misconduct or a knowing violation of law, (iii) the director derived an improper personal benefit from (such as a financial profit or other advantage to which the director was not legally entitled) or (iv) breached the director's duty of loyalty. The DGCL also prohibits limitations on director liability under Section 174 of the DGCL, which relates to certain unlawful dividend declarations and stock repurchases. The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. In addition, your investment may be adversely affected to the extent we pay the settlement costs and damage awards against directors and officers pursuant to these indemnification provisions.

We maintain insurance that insures our directors and officers against certain losses and which insures us against our obligations to indemnify the directors and officers. We have also entered into indemnification agreements with our directors and executive officers.

Exclusive Forum Clause

Our amended and restated certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, to the fullest extent permitted by law, the sole and exclusive forum for any stockholder (including any beneficial owner) to bring (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or employees to us or to our stockholders, (iii) any action asserting a claim arising pursuant to any provision of the DGCL or our certificate of incorporation or bylaws or (iv) any action asserting a claim governed by the internal affairs doctrine, is a state court located within the State of Delaware (or, if no state court located within the State of Delaware has jurisdiction or declines to accept jurisdiction, the federal district court for the District of Delaware); in all cases subject to such court having personal jurisdiction over the indispensable parties named as defendants.

[Table of Contents](#)

In addition, our amended and restated certificate of incorporation provides that the federal district courts of the United States are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act but the forum selection provisions do not apply to claims brought to enforce a duty or liability created by the Exchange Act. Although we believe these provisions benefit us by providing increased consistency in the application of Delaware law for the specified types of actions and proceedings, the provisions may have the effect of discouraging lawsuits against us or our directors or officers.

Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock is deemed to have notice of and consented to the foregoing provisions. See “Risk Factors” in our most recent Annual Report on Form 10-K incorporated herein by reference.

Delaware Takeover Statute

We are subject to Section 203 of the DGCL, an anti-takeover statute. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years following the time the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a “business combination” includes a merger, asset or stock sale or other transaction resulting in a financial benefit to the interested stockholder. Generally, an “interested stockholder” is a person who, together with affiliates and associates, owns (or within three years prior to the determination of interested stockholder status, did own) 15% or more of a corporation’s voting stock. The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by the board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

Provisions of Our Certificate of Incorporation, Bylaws and Delaware Law That May Have an Anti-Takeover Effect

Provisions of the DGCL and our amended and restated certificate of incorporation and amended and restated bylaws could make it more difficult to acquire our company by means of a tender offer, a proxy contest or otherwise, or to remove incumbent officers and directors. These provisions, summarized below, are intended to discourage coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of these provisions outweigh the disadvantages of discouraging certain takeover or acquisition proposals because, among other things, negotiation of these proposals could result in an improvement of their terms and enhance the ability of our board of directors to maximize stockholder value. However, these provisions may delay, deter or prevent a merger or acquisition of us that a stockholder might consider is in its best interest, including those attempts that might result in a premium over the prevailing market price of our common stock.

Requirements for Advance Notification of Stockholder Meetings, Nominations and Proposals

Our amended and restated certificate of incorporation provides that special meetings of the stockholders may be called only by or at the direction of the board of directors, the chairman of our board or the chief executive officer with the concurrence of a majority of the board of directors or at the written request of one or more stockholders who own shares representing at least 45% of the voting power of the stock outstanding and entitled to vote on the matters to be brought before the proposed special meeting and who comply with specified procedural requirements in our amended and restated bylaws. Our amended and restated bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers or changes in control or management of our company.

Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as director. In order for any matter to be “properly brought” before a meeting, a stockholder will have to comply with such advance notice procedures and provide us with certain information. Our amended and restated bylaws allow the presiding officer at a meeting of stockholders to adopt rules and regulations for the conduct of meetings which may have the effect of precluding the conduct of certain business at a meeting if such rules and regulations are not followed. These provisions may also defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer’s own slate of directors or otherwise attempting to influence or obtain control of our company.

Supermajority Voting for Amendments to Our Governing Documents

Any amendment to our amended and restated certificate of incorporation requires the affirmative vote of at least 66 $\frac{2}{3}$ % of the voting power of all shares of our common stock then outstanding. Our amended and restated certificate of incorporation provides that the board of directors is expressly authorized to adopt, amend or repeal our bylaws and that our stockholders may amend our bylaws only with the approval of at least 66 $\frac{2}{3}$ % of the voting power of all shares of our common stock then outstanding. However, to the extent a holder or an affiliated group of holders of our Series A-2 preferred stock owns more than 45% of our outstanding common stock, which includes shares of common stock issued upon conversion of the Series A-2 preferred stock, the affirmative vote of at least a majority of the voting power of the stock outstanding and entitled to vote thereon, voting together as a single class, will be required for the stockholders to adopt, amend or repeal, or adopt any provision inconsistent with, any provision of our amended and restated certificate of incorporation or our bylaws, as applicable.

No Cumulative Voting

The DGCL provides that a stockholder’s right to vote cumulatively in the election of directors does not exist unless the certificate of incorporation specifically provides otherwise. Our amended and restated certificate of incorporation does not provide for cumulative voting.

Classified Board of Directors

Our amended and restated certificate of incorporation provides that our board of directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible, designated Class I, Class II and Class III. The terms of Class I, Class II and Class III directors end at our 2024, 2022 and 2023 annual meetings of stockholders, respectively. Commencing with the 2024 annual meeting of stockholders, directors of each class the term of which shall then expire shall be elected to hold office for a three-year term. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our board of directors. Our amended and restated certificate of incorporation provides that the number of directors will be fixed from time to time exclusively pursuant to a resolution adopted by the board of directors, but must consist of not less than three or more than 15 directors.

Removal of Directors; Vacancies

Our amended and restated certificate of incorporation and amended and restated bylaws provide that directors may be removed only for cause and only upon the affirmative vote of holders of at least 66 $\frac{2}{3}$ % of the voting power of all the then outstanding shares of stock entitled to vote generally in the election of directors, voting together as a single class. In addition, our amended and restated certificate of incorporation and amended and restated bylaws provide that any newly created directorships and any vacancies on our board of directors will be filled only by the affirmative vote of the majority of remaining directors. Therefore, while stockholders meeting the applicable requirements may call a special meeting for the purpose of removing directors, stockholders are not able to elect new directors to fill any resulting vacancies that may be created as a result of such a special meeting.

Stockholder Action by Written Consent

The DGCL permits any action required to be taken at any annual or special meeting of the stockholders to be taken without a meeting, without prior notice and without a vote if a consent in writing, setting forth the action so taken, is signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of stock entitled to vote thereon were present and voted, unless the certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation and amended and restated bylaws preclude stockholder action by written consent.

Limitations on Liability and Indemnification of Officers and Directors

The DGCL authorizes corporations to limit or eliminate the personal liability of officers and directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties. Our amended and restated certificate of incorporation and amended and restated bylaws include provisions that eliminate, to the extent allowable under the DGCL, the personal liability of officers and directors for monetary damages for actions taken as an officer or a director, as the case may be. Our amended and restated certificate of incorporation and amended and restated bylaws also provide that we must indemnify and advance reasonable expenses to our officers and directors to the fullest extent authorized by the DGCL. We are also expressly authorized to carry directors' and officers' insurance for our officers and directors as well as certain employees for certain liabilities.

The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against officers and directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against officers and directors, even though such an action, if successful, might otherwise benefit our company and our stockholders. In addition, your investment may be adversely affected to the extent that, in a class action or direct suit, we pay the costs of settlement and damage awards against officers and directors pursuant to these indemnification provisions.

At present, there is no pending litigation or proceeding involving our directors or officers for whom indemnification is required or permitted, and we are not aware of any threatened litigation or proceeding that may result in a claim for indemnification.

Authorized but Unissued Shares

Our authorized but unissued shares of common stock and preferred stock are available for future issuance without stockholder approval. The DGCL does not require stockholder approval for any issuance of authorized shares. However, the rules of the New York Stock Exchange require stockholder approval of certain issuances equal to or exceeding 20% of the then-outstanding voting power or the then-outstanding number of shares of common stock. No assurances can be given that our shares will remain so listed. We may use additional shares for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. As discussed above, our board of directors has the ability to issue preferred stock with voting rights or other preferences, without stockholder approval. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of our company by means of a proxy contest, tender offer, merger or otherwise.

Corporate Opportunities

In recognition that certain directors, principals, members, officers, employees and other representatives of Oaktree Capital Management, L.P. and its affiliated entities and funds and their respective affiliates (other than us), which we refer to as the Oaktree Entities, may serve as a member of our board of directors, and that the Oaktree Entities or any representative thereof who serves on our board of directors, who we refer to as an Oaktree Director, may engage in the same or similar activities or related lines of business that we do or other

business activities that overlap or compete with our business, our amended and restated certificate of incorporation provides for the allocation of certain corporate opportunities between us and the Oaktree Entities. Specifically, none of the Oaktree Entities or any Oaktree Director has any duty to refrain from engaging, directly or indirectly, in a corporate opportunity in the same or similar activities or related lines of business that we do or that we may propose to engage in or from otherwise competing with us. In the event that any Oaktree Entity or Oaktree Director acquires knowledge of a potential transaction or matter which may be a corporate opportunity for itself and us, we will not have any expectancy in the corporate opportunity, and no Oaktree Entity or Oaktree Director will have any duty to communicate or offer the corporate opportunity to us and may pursue or acquire such corporate opportunity for itself or direct such opportunity to another person. In addition, if an Oaktree Director acquires knowledge of a potential transaction or matter which may be a corporate opportunity for us and an Oaktree Entity, we will not have any expectancy in the corporate opportunity unless the corporate opportunity is expressly offered to the person solely in his or her capacity as one of our directors. See “Risk Factors” in our most recent Annual Report on Form 10-K incorporated herein by reference.

PLAN OF DISTRIBUTION

We or any selling stockholder may sell the shares of common stock through one or more transactions, including, without limitation:

- directly to purchasers;
- to or through one or more brokers or dealers;
- to the public through one or more underwriters acting alone or underwriting syndicates led by one or more managing underwriters;
- through or to agents; or
- in any combination of the above.

A prospectus supplement with respect to a particular offering of common stock will set forth the terms of the offering of those shares, including the following:

- name or names of any underwriters, dealers or agents;
- the purchase price of the securities and the estimated amount of net proceeds we or any selling stockholder will receive;
- any underwriting discounts and commissions; or
- any public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

If underwriters are used in the sale, the underwriters will acquire the securities for their own account and they may resell them from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriting syndicates represented by one or more managing underwriters or one or more independent firms acting as underwriters may offer the securities to the public. In connection with the sale of securities, we or any selling stockholder may compensate the underwriters in the form of underwriting discounts and commissions. The purchasers of the securities for whom the underwriters may act as agent may also pay them commissions. Underwriters may sell the securities to or through dealers, and these dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents. Unless otherwise set forth in the applicable prospectus supplement, the obligations of any underwriters to purchase the securities will be subject to conditions precedent, and the underwriters will be obligated to purchase all of the securities if any are purchased.

If dealers are used in the sale of the securities, the securities will be sold to the dealers as principals. The dealers may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. The applicable prospectus supplement will name any dealer, who may be deemed to be an underwriter, as that term is defined in the Securities Act, involved in the offer or sale of securities, and set forth any commissions or discounts we grant to the dealer.

If agents are used in the sales of the securities, the agents may solicit offers to purchase the securities from time to time. Any of these agents, who may be deemed to be an underwriter, as that term is defined in the Securities Act, involved in the offer or sale of the securities will be named, and any commissions payable by us or such selling stockholders to such agent will be set forth, in the applicable prospectus supplement. Any agent will be acting on a reasonable efforts basis for the period of its appointment or, if indicated in the applicable prospectus supplement, on a firm commitment basis.

We or any selling stockholders may designate underwriters or agents to solicit purchases of shares of our common stock for the period of their appointment and to sell securities on a periodic basis, including pursuant to “at-the-market offerings” pursuant to the terms of a distribution agreement entered into with the underwriters or agents. If we or the selling stockholders engage in at-the-market sales pursuant to a distribution agreement, we will issue and sell or the selling stockholders will sell, as applicable, the shares to or through one or more underwriters or agents. During the term of any such distribution agreement, shares may be sold on a daily basis in exchange transactions or

otherwise as may be agreed with the underwriters or agents. The distribution agreement may provide that any shares of our common stock sold will be sold at prices related to the then prevailing market prices for our securities. Therefore, exact figures regarding net proceeds or commissions to be paid are impossible to determine and will be described in the applicable prospectus supplement. The terms of each such distribution agreement will be set forth in more detail in the applicable prospectus supplement. Any named underwriters may engage in certain transactions that stabilize, maintain or otherwise affect the price of our shares and any such activities will be described in the applicable prospectus supplement relating to the transaction. To the extent that any named broker dealer or agent acts as agent on a best efforts basis pursuant to the terms of a distribution agreement, such broker dealer or agent will not engage in any such stabilization transactions.

Securities may also be sold directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to resales. The terms of those sales would be described in the applicable prospectus supplement.

If indicated in the applicable prospectus supplement, agents, underwriters and dealers may be authorized to solicit offers to purchase securities from us or any selling stockholder at the public offering price set forth in the applicable prospectus supplement pursuant to stock purchase or delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the applicable prospectus supplement, and the applicable prospectus supplement will set forth the commission payable for solicitation of the contracts.

Agents, dealers and underwriters may be entitled under agreements to indemnification by us and any selling stockholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the agents, dealers or underwriters may be required to make. Agents, dealers and underwriters or their affiliates may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of business for which they receive customary compensation.

If indicated in the applicable prospectus supplement, one or more firms may offer and sell securities in connection with a remarketing upon their purchase, in accordance with their terms, acting as principals for their own accounts or as agents. Any remarketing firm will be identified and the terms of its agreement, if any, will be described in the applicable prospectus supplement. We and any selling stockholder may be obligated to indemnify the remarketing firm against certain liabilities, including liabilities under the Securities Act, and the remarketing firm may engage in transactions with or perform services for us or our subsidiaries for customary compensation.

Any underwriter may engage in over-allotment, stabilizing and syndicate short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which creates a short position. Stabilizing transactions involve bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Syndicate short covering transactions involve purchases of securities in the open market after the distribution has been completed in order to cover syndicate short positions. Penalty bids permit the underwriters to reclaim selling concessions from dealers when the securities originally sold by the dealers are purchased in covering transactions to cover syndicate short positions. These transactions may cause the price of the securities sold in an offering to be higher than it would otherwise be. These transactions, if commenced, may be discontinued by the underwriters at any time.

In compliance with the guidelines of the Financial Industry Regulatory Authority, Inc., or FINRA, the consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate proceeds of the offering.

The applicable prospectus supplement relating to each offering will set forth the anticipated date of delivery of the securities.

The specific terms of any lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.
